NEW COLLABORATION WITH THE PAINT CLUB

The Paint Club is a small business based in the UK that host paint and sip parties virtually and at local venues. Perfect fto celebrate your hen do, birthday or corporate party!

On the 10th of May 2022, I hosted my first Paint Club event "Nordic Sunset". These paintings are designed to teach you simple techniques to create a fun painting accessible for anyone to learn.

If you want to join, I will be hosting workshops every second Tuesday of the month at Castle Inn Pub and at Stolen Liquor loft on every 3rd Wednesday of the month!

SPRING EXHIBITION: 14TH APRIL - 18TH JUN: VAPOR SERIES

This spring I exhibit my latest series of “Vaporscapes”.

These works are based on the colours of Cambridge in spring and summer. Following their previous series, *Diaspora Vapor Series I* (2020), these studies on canvas and paper were a way for Molly to explore higher saturation of colour during the intense summer months in Cambridge after moving home from the Welsh coast. Using pencil, pen, ink and paint Molly aims to create a space the viewer can follow and travel through.

Over the winter, she found a way to translate her abstract style into digital artwork.

gallerie u “vapor” exhibit

These digital manipulations are the second stage of my process towards completing my first ever installation.

The digital works are based on physical 59 x 59 cm works from her Diaspora Vapor Series II on paper in which she continues to explore her relationship and knowledge of blue and green whilst considering distance and the place of the viewer.

By furthering her process in Adobe Fresco, Molly is hoping to continue to create “vapor spaces” created with a variety of materials and mediums.

The next stages for this series to complete the installation will include more layers of digital art and paper, as well as glass.

NEW WEBSITE AND rkey2.com

In July, I hope to remove my old wordpress website and 100% use my new, bespoke designed website I made myself.

My website will also serve as an example of customisation for a project called "rkey2". This project is a collaboration with a friend who owns rtisan. We met through a charity, and although our project is still in progress, we are excited to get it up and launched, hopefully later on in the year.

WORKS IN PROGRESS: "AFTER VINCENT: "VAN" VAPOR", "True to Nature" Exhibition Studies

Over the past month I have done a lot of travelling and have had the pleasure of visiting Norway and Amsterdam.

After seeing so many beautiful landscapes and art in galleries on my travels, it has influenced my work a lot.

I am working on a series of Vaporscapes based on the colour palettes Vincent Van Gogh used in his work. Hence the punny name.

works in progress

@mollsportfolio

The latest exhibition at the fitzwilliam museum in Cambridge was especially influencial for me.

After travelling, the 1700/1800s Plein Air landscapes were inspiring to see. The sizes of the works surprised me, and it also made sense at the same time.

Due to the subject matter, I decided to begin some studies of the masterful work I saw. I plan to continue this and complete at least one large canvas painting inspired by this exhibition before the end of the year.

“vapor” fine art prints £20

purchase online and on etsy

My first print release went live on 01 May 2022.

You can now purchase Vapor Fine art prints on Giclee paper for only £20 + free delivery in the UK.

Available on my wordpress site <https://www.mollsportfolio.com>
Available on ETSY @mollsportfolio.

thank you for reading!

Next newsletter will be out before July/August!
